3. Crisis Management Communication Card.

We are informed that our request to Lt. General Scowcroft for direction and assistance in developing a modus operandi for collecting the names of facilities outside the intelligence community which should be included on the card is under consideration by White House staffers. One possible course may be to have the NSC Staff originate the requirement and establish a work program to develop the directory. While this would

successfully solve the matter of divorcing intelligence from the domestic aspects, it is hoped that it would not result in the elimination of intelligence participation in the cards production. Action officer: IHC/[ ]
